Dear Parents and Carers,

Being a Parent Governor at Hudson School and Children's Centre

As you may know, Hudson Primary has a board of governors to oversee the workings of the school. The role of a governor involves being a 'critical friend' to those committed to your child's education. There are different categories of governor, but we currently have **TWO** vacancies for parent governors to join our team. If you have enthusiasm for your child's education then I ask that you would consider if you would consider supporting the school in this way.

The role of governor does not necessarily require any previous expertise or experience. As a parent or carer you already bring invaluable knowledge. It is very useful to see a child's perspective on the school. You will find support from other governors and the staff. Training events and online courses are also available. The main requirement is a commitment of your time to attend meetings with governors and staff (on average 4 or 5 per term). All Governor meetings are currently held on Wednesdays at 6pm, however this can be altered if required.

As a Governing Body we are very proud of the numerous improvements that have been made in our school over the past few years. Indeed many of these have been driven by previous Parent Governors.

The most recent whole school Ofsted report described Hudson as a good school with some outstanding features: the goal now is to become an outstanding school in all areas. Indeed as can be seen below we are an Outstanding Early Years Provider.

By becoming a Parent Governor you can be involved in all stages of Hudson's development from sparking ideas right through to making it happen. You can help make Hudson the school you want it to be for your child. If you are interested in making Hudson Primary School and Children's Centre an "Outstanding" school and community facility, please complete the attached nomination form.

Yours faithfully

Daniel Garside

Chair of Governors

on behalf of the Hudson School Governing Body
